The Medical University of Lodz is the largest public medical university in Poland. Its mission is focused on:

- Educating students in medicine, dentistry, pharmacy, nursing as well as in other medicine-related disciplines
- Conducting research and scientific activity
- Developing postgraduate programs

In frame of scientific partnership agreements the University is cooperating with the following foreign academic and research centers:

- University of Alabama at Birmingham, USA
- University of Rouen, France
- University of Texas USA, Health Science Center at Houston
- Medical University of Vienna, Austria
- Medical University of Odessa, Ukraine
- Catholic University in Nijmegen, Netherlands

Fields of study in English:

- 6-year MD Program
- 4-year MD Program
- 5-year DMD Program
- 2-year MSc Medical Biotechnology Program
- 3-year BSc Nursing Program
- 4-year PhD Program

Facts & figures:

- 60 years of tradition
- Around 3600 academic staff members
- Over 8500 students (73% women)
- About 300 foreign students

- Study in Polish: Phone: +48 42 2725177 • e-mail: rekrutacja@umed.lodz.pl

Clinical Activity is conducted in 4 Teaching University Hospitals with over 2000 beds. These clinics provide medical services for patients mainly from the local community and are also an essential base for practical education and research work for both undergraduate and postgraduate students.

Medical teaching in English was initiated in 2003/2004. Presently over 300 foreign students from various countries attend 6-year MD, 4-year MD and 5-year DMD programs and over 250 have already graduated. Furthermore, international students may attend a 2-year MSc in Biotechnology, various PhD programs and a 3-year BSc Nursing program to be inaugurated in 2013/2014.

Following the entry of Poland into the European Union on May 1st, 2004, the University diplomas are recognized in the EU countries which makes studies at the MUL more attractive both for Polish and international applicants.
