Collegium Civitas was founded in 1997 under the auspices of The Polish Academy of Science and since that time the University has earned a deserved reputation of an exceptional place to study international relations, social and political sciences in English. Collegium Civitas is situated in the very heart of Warsaw, the capital of Poland. In Central and East Europe it is one of the very best if it comes to a variety and quality of offered courses and programs taught in English. Collegium Civitas is entitled to award BA, MA and PhD degrees. It has a rich variety of programs. One of the most up-to-date proposals is a Master Program in Asian Studies.

Collegium Civitas boasts Accreditations by the National Accreditation Commission and from the University Accreditation Commission at the Conference of Rectors of Polish Universities. Collegium Civitas is the only university in Poland that awards the Joint European Degree. Together with Kingston University London, UK, University of Siena, Italy, Viadrina European University, Germany, it runs the Human Rights and Genocide Studies MA Program.

International contacts of Collegium Civitas are extensive. It also hosts many distinguished visiting scholars, MA in Asian Studies represents a perfect example of a program, taught mostly by experts from abroad.

Out of the eight last Polish university rankings, Collegium Civitas has won the first place six times, once being third and once second. According to prominent weekly Newsweek Polska, graduates of Collegium Civitas are among those who are most sought-after by potential employers in Poland.

Collegium Civitas strives to achieve teaching excellence. Internationally renowned lecturers, small class sizes, availability of many elective courses along obligatory ones, online access to reading materials, extra curriculum lectures by visiting speakers, practical angle (e.g. in the Asian Studies Program) are among factors that make studying at Collegium Civitas a truly rewarding experience. Hardly any university in Europe may boast the fact that as many as four of its lecturers are Members of the EU Parliament, as it is the case in Collegium Civitas. Among its instructors there are also former Ambassadors and Charge d’affaires.

The university is situated in the center of Warsaw, in the landmark Palace of Culture and Science. The site contains most of the provisions for a comfortable life, from banks and post-offices to restaurants and bars.

Finally, Collegium Civitas is a non-profit university. Its status helps it maintain tuition fees at a very reasonable level. Some programs, like MA in Asian Studies, are co-funded by the European Union. Combined with low costs of living in Warsaw compared to other European capitals, Collegium Civitas is indeed one of the most attractive universities in the European Union for all those who value what they study, how they study and how their studies will impact their future plans.

See you among our students!

  The Bachelor’s in International Business at Collegium Civitas is an education program which explores the diversity and complexity of business in an increasingly interconnected world. This 3-year, full-time Bachelor’s Course is structured to provide students with a broad comprehension of the most important concepts of business with an international perspective, as well as the flexibility to adjust the program to students’ individual needs. The emphasis of the program is put on developing skills in assessing the global environment for business, analyzing international markets, and identifying new international business opportunities.

- **Objectives and learning outcomes**
  - acquire practical business knowledge with a focus on cross-cultural understanding of the marketplace.
  - develop an international perspective, crucial to the understanding of today’s business issues.
  - analyze and make conclusions based on critical comprehension of key events in international economics
  - make intelligent judgments on the basis of accessible information
  - make use of appropriate information sources, especially via the Internet

- **Employment perspectives**
  Upon completion of the Bachelor’s in International Business, graduates are well-prepared to launch successful careers in the field of international business, working, for instance, for media companies, multinational firms, exports, international organizations, or consultancies, to name a few.

description
In recent years there has been a growing academic and practical interest in human rights and in a separate but related issue of genocide, with an increasing concern with how genocide might be prevented or halted. The European Master of Arts in Human Rights and Genocide Studies Program is concerned directly with these major themes of our time. This Program is a unique inter-disciplinary MA degree program, the first of its kind in Europe. It is taught in 4 universities: Collegium Civitas, Warsaw (Poland) European University-Viadrina, Frankfurt (Oder) (Germany) Kingston University, London (UK) Siena University, Siena (Italy) Students will spend the first semester of their studies either at Kingston University in London or at the European University-Viadrina, Frankfurt (Oder). During the second semester they will study at any of the four universities, different from the one where they studied during the first semester. In the third semester, students will complete an internship and write their dissertation under the supervision of a professor from the chosen university.   The Masters in International Business & Negotiations at Collegium Civitas is an education program which promotes both breadth and depth of business studies. This 2-year, full-time Masters Degree Course focuses on providing students with state-of-the-art skills and knowledge in core business disciplines, enriching them with an international focus. Students gain a deep understanding of management in international business and complementary disciplines, allowing them to take roles as consultants or specialists in international enterprises. Students enrolled in the program develop in themselves the art of international negotiations, the resolution of ethical dilemmas in international business, and the development of international business strategies.

- Objectives and learning outcomes
  • acquire and develop practical business knowledge with a focus on international understanding of the marketplace
  • efficiently use negotiation techniques in interpersonal communication
  • write business plans that describe your business ideas in detail
  • develop interpretative and analytical skills
  • absorb an in-depth knowledge of modern marketing principles

- Employment perspectives
  Upon completion of the Masters in International Business & Negotiations, graduates are well-prepared to launch successful careers in the field of international business, whether for financial institutions, consulting companies, multinational corporations, or joint ventures.

- description
  The Masters in International Relations at Collegium Civitas is an education program which aims to prepare students for analytical research on processes, structures, and key factors necessary to understand international relations. This 2-year, full-time Masters Degree Course explores the processes and conceptions behind international relations, analysing the role of states, multinational corporations, and international organizations. The education program offers an interdisciplinary, critical, sophisticated approach to international affairs, teaching students to apply tools of critical research to a variety of world issues. The program focuses on issues vital for explaining overall global dynamics: security, human rights, terrorism, and globalization.

- Objectives and learning outcomes
  - analyze and make conclusions based on critical understanding of key events in international politics
  - acquire a sound knowledge and competent interpretation of the discipline of international relations
  - attain a general critical awareness of key issues
  - develop interpretative and analytical skills
  - critically assess data, information and ideas
  - develop a greater comprehension of the key concepts and theories used to explain contemporary international events
    - gain awareness of the interaction between international organizations and institutions

- Employment perspectives

language
English
ECTS points
120
description
The Masters in Management & Global Affairs at Collegium Civitas is an education program which provides students with in-depth knowledge of modern management and marketing principles as well as on strategies of effective international negotiations. This 2-year, full-time Masters Degree Course was designed to equip future managers with the marketing skills they will undoubtedly need to thrive in a rapidly-changing global business environment. Students enrolled in the program gain both theoretical and practical knowledge that is necessary for a career in various branches connected with global affairs. On completion of this specialization, students will acquire the awareness of the power of media in all their forms and gain the crucial communication skills essential for any venture. OBJECTIVES AND LEARNING OUTCOMES: • absorb an in-depth knowledge of modern public relations principles • acquire presentation and communication skills necessary to work in multi-national settings and companies • gain and develop practical business knowledge with a focus on international aspects of the marketplace • successfully face the challenges of a global market environment • understand the power of media in all their forms and have the crucial communication skills to add value to any venture EMPLOYMENT PERSPECTIVES: Upon completion of the Masters Management and Global Affairs, graduates are well-prepared to launch successful careers in the field of international public relations, whether working for multinational businesses, PR companies, international organizations, or the media.
