Founded in 1997, University of Lower Silesia (ULS) is one of the biggest and the oldest non-public universities in Poland. Set close to the city center and only 20 minutes drive from Wrocław’s airport ULS offers students studies in modern buildings with convenient access not only to the city’s main attractions but also to the rest of Europe. Situated between Prague, Warsaw and Berlin Wrocław boats a developed transportation infrastructure that connect the metropolis with the whole of the continent and beyond.

Presently about 7000 students participate in full-time, evening, part-time, post-graduate and PhD studies at ULS. Four faculties of the University are: Faculty of Educational Sciences, Faculty of Social Sciences and Communication, Faculty of Technical Sciences, Branch Faculty of Educational Sciences in Kłodzko.

At present ULS employs almost 200 teachers and scholars.

Two faculties of University: Faculty of Educational Sciences and Faculty of Social Sciences and Communication have the right to confer doctor’s degree. Moreover the Faculty of Educational Sciences has the right to confer a habilitated doctor’s degree.

Facts & figures: During the fifteen years of University’s existence the student body has grown from 368 to almost 7000 students • 20,000 graduates • 13 study programmes for all type of studies with 77 fields of study in Polish • Cooperation with above 70 European higher education institutions within LLP- Erasmus programme • The vast majority of teachers from the Lower Silesia region are trained and educated at ULS

- description
  Cultural Animation and Museum Studies are addressed to students who wish to pursue studies and work in the broadly
understood area of cultural animation and education with particular consideration of museum studies and education. The
graduate of this specialization is prepared for work in cultural and non-school based education institutions, which design
their activities for all recipients’ and participants’ age groups (museums, community centers, centers for cultural activities,
common universities, universities of the third age, culture disseminating organizations, associations and non-governmental
organizations etc.). The competencies acquired by graduates enable creative usage of contemporary media (Internet) for
dissemination, promotion and animation of actions in the area of widely understood culture as well as initiation of
independent actions in the economic reality.
