# Polish-Japanese Academy of Information Technology

**Polish-Japanese Academy of Information Technology** (former Polish-Japanese Institute of Information Technology) is one of the **best non-state institutions** of higher education in Poland, often praised by employers, students and the media. It was founded in 1994 on the basis of a bilateral agreement between the governments of Poland and Japan. It places special emphasis on the curriculum, which is continuously reviewed and updated to meet the requirements of the job market, widely accepted academic standards, both Polish and European, advancements in computer science and its applications. **PJAIT** has the right to grant bachelor, engineer, master and doctoral degrees in science and art. As one of four privately-owned universities, it confers a PhD degree.

The Faculty of **Computer Science** is an unquestionable leader on the educational market in Poland. We put special emphasis on having a high-quality curriculum relevant to the needs of the market, and on teaching with the use of state-of-the-art technologies.

The Faculty of **Information Management** offers modern engineer studies which combine the knowledge of management with the knowledge of

information technology.

The **Art and Design** profile of study allows for the acquisition of knowledge necessary for the creation of multimedia works characterized by the use of advanced technology, as well as the development of one's artistic skills. Graduates are proficient users of IT tools and possess knowledge of graphic arts.

**Interior Design** is an interdisciplinary field of study which gives in-depth knowledge, awareness and skills in creating human environment.

The Faculty of **Culture of Japan** offers culture studies, with special focus on the culture and art of the Far East and extensive study of the Japanese language.

**PJAIT** focuses on **practical skills**. Owing to that our students and graduates do not have problems finding a job. They are **well equipped to work** in many areas in which the practical knowledge of IT is the prerequisite. **PJAIT** employs outstanding specialists, researchers and academic teachers from Poland and other countries as well.

Students of all faculties can use excellent facilities, such as modern IT and graphic design laboratories. **PJAIT** organizes also numerous meetings with **scientists, artists, IT companies representatives** and **future**

**employers** (e.g. Google, Microsoft, Samsung). **PJAIT** supports students scientific research and interests. In cooperation with our partners, such as Microsoft, Autodesk, SAP, SAS, VMware, we offer our students **free software** required for classes and personal projects.

Under cooperation agreements, **PJAIT** students and teaching staff can take part in foreign exchange programmes (e.g. Japan). **PJAIT** has intercollegiate exchanges within Erasmus+ programme with 42 universities (e.g. Great Britain, Germany, Spain, Italy).

The school offers an **extensive system of scholarships**. Students are obliged to participate in an internship programme and the best among them have an opportunity to get a placement with internationally-recognized companies. **Studies in PJAIT guarantee interesting and well-paid jobs in the future**. They are an investment in the future professional success.

**PJAIT** students have an opportunity to learn Polish and Japanese **for free** during the academic year. Moreover, the intensive 30-day Polish and English courses in September are also free of charge for newcomers!

**We are located in the centre of Warsaw.  
Do not hesitate and join us!**

## Programmes of study in English

### Fields of study in Polish

- architektura Wnętrz Interior Design
- informatyka Computer Science
- kultura Japonii Culture of Japan

- BA in Art and Design (full-time)
