Nicolaus Copernicus University in Torun

Toruń, located on the River Vistula is one of the oldest and most beautiful cities in Poland. Nearly 23,000 young students are present on the campus and elsewhere in the city, in its streets, clubs, cafes and pubs. This creates a dynamic cultural and intellectual atmosphere throughout the year to complement the stunning scenery of the Old Town.

Many people choose Toruń as a place of study not only because of the beauty of the city, but also because

The University has the state-of-the-art research infrastructure including the National Laboratory of Atomic, Molecular and Optical Physics, the Centre for Quantum Optics and the Interdisciplinary Centre for Modern Technologies. The Centre for Astronomy in Płocznica Toruń houses a unique 32-metre radio telescope.

This has contributed to the Nicolaus Copernicus University's position as one of the best universities in Poland, and it is also the reason why the QS World

Accommodation – Campuses

There are two university campuses in Toruń: the Center Campus and the Bielany Campus, as well as campus in Bydgoszcz. The University currently owns 14 student dormitories with accommodation for more than 3,500 students, including modern and fully equipped student dormitory in Bydgoszcz. Free Internet access is provided in all student dormitories.

Students life

Both campuses in Toruń and Bydgoszcz have a lot to offer. There are more than 200 students scientific associations. People keen on physical activity will find their place in various sections of the Academic Sports Association. Moreover, NCU has its own students club OD NOWA which offers wide range of cultural events during the whole year.

Good to know

Study in Toruń – International Student Blog is a place for the international students of the Nicolaus Copernicus University (NCU) to share their experience, knowledge, culture and ideas concerning their studies and life in Toruń. If you want to know more about studying at NCU and about life in Toruń, check our website: studyintorun.pl

Those, who are willing to participate in classes taught in Polish, but feel that their level of Polish is insufficient, can join one-year intensive Polish course offered by NCU. For more information go to: http://jezyk-polski.umk.pl/wersja_a/index.html

The modern University Sports Centre with a swimming pool provides students with a wide range of sport activities such as basketball, volleyball, aerobics, yoga, steam gym, swimming, judo, aikido, and cycling.

My scientific growth at NCU

Li Guoqi (China): I came to the Nicolaus Copernicus University to study Chemistry and I completed Master Degree. Now, I am a PhD student at the Faculty of Chemistry. I found the atmosphere of scientific research very strong. Professors are very friendly and the relationship between teachers and students is very harmonious and equal. The university campus is very beautiful. It is not far away from the city centre and you can get to the old town by tram in 10 minutes. I enjoy practicing my English. In the meantime, studying Polish has become one of my interests.

of the relatively lower cost of living. Toruń guarantees a high quality of education for less expenditure.

The Nicolaus Copernicus University in Toruń has been one of the top five Polish public universities for years. For over 70 years of its existence, around 200,000 alumni have received their degrees.

The University greatly increased its strength in 2004, when the medical school in neighbouring Bydgoszcz was incorporated within it as NCU Collegium Medicum.

Currently, NCU has 17 faculties and is a strong research centre.

University Ranking has placed NCU in the top 3% of universities in the world.

The Faculty of Economic Sciences and Management is the first and the only public university in Poland, which received a very prestigious business accreditation – AACSB International. Currently, this accreditation is possessed by an elite group of less than 5% of all business schools in the world (a total of 740 institutions from nearly 50 countries). The accreditation is granted for 5 years. Therefore, all FESM graduates, apart from a university diploma, receive also appropriate certification.
