Silesian University of Technology

WORLD-CLASS EDUCATION

The Silesian University of Technology (SUT) is a place that, without any doubts, educates successful people. It is a modern higher education institution with 75 years of tradition in teaching, research and science. Join us and choose a unique opportunity to study engineering, languages, organization and management at the university with a worldwide academic reputation and vivid cooperation with major industrial partners.

STUDY IN THE HEART OF EUROPE

The SUT consists of fifteen faculties – eleven in Gliwice, two in Zabrze and two in Katowice. The main seat of the SUT is in Gliwice, a charming, 800 years old city and important scientific, research and design centre in Poland. Gliwice has nearly 200,000 inhabitants and thanks to the SUT it is the second (next to Warsaw) agglomeration of technical intelligence. During the last 20 years, Gliwice has transformed from

a city based on a heavy industry into a leader in the new technologies.

COOPERATION WITH THE INDUSTRY

The SUT established close cooperation with its business environment. In the entire Upper Silesia, there are numerous companies and special economic zones, including the Katowice Special Economic Zone, with numerous enterprises operating in the fields of advanced technologies. The SUT does it in order to reach its main objective, which is to train highly skilled engineering staff for the modern industry and to conduct and implement innovative research. The University also pays special attention to the development of entrepreneurship among its students.

LEARN FROM THE BEST

The SUT is home to a vibrant community of almost 1,700 of the best and brightest minds. We attract

academics whose passion and brilliance drives them to become leaders in their field. The university offers studies on bachelor, master and doctoral level. Studies are conducted in a full-time and a part-time system. The majority of bachelor programmes are 3.5 years long (7 semesters) and master programmes are 1.5 years long (3 semesters) with the possibility of an extension.

BEST STUDENT EXPERIENCE

Studies at the SUT give ample opportunities to broaden your interests. During the academic year, the university is vibrant with activities inspired by the Student Council and various student organizations, over 100 scientific associations and 20 different sports sections, such as basketball, volleyball, cycling, handball, skiing, aerobics etc.

The SUT is also a key player in new technologies. It is here, where new ideas are brought to life, and once applied by the industry they boost the competitiveness of Polish and international companies.

AWARDS AND RANKINGS

The SUT received two ELSEVIER Research Impact Leaders Awards. In 2016 in the Engineering and Technology category and in 2018 in the Social Sciences category as one of the higher education institutions whose publications had the greatest impact on the perception of Polish science in the world. The Silesian University of Technology also ranked 4th in the recent Perspektywy Foundation Ranking of Engineering Studies 2018 and 9th among all Polish universities.

Wonderful place and people

Ricardo Marques: *I am a Brazilian and I am PhD student in materials engineering. I always had the intention to participate in an exchange programme and the Erasmus Mundus gave me this opportunity. I opted for it because I believe that it is the most famous exchange programme and offers the best support for students. Before applying for the exchange I've done research on the universities in Europe and chose Silesian University of Technology because it fits my research needs. I was very well received by professors, colleagues and staff. The life in Poland, more specifically in Gliwice, is wonderful and quite. People are well-educated and whenever possible they help others. It is wonderful lesson of a different culture. I will keep this experience in my mind for the rest of my life. I am very thankful of this opportunity and I hope to stay in touch with friends I met.*

JOIN US AT SUT TODAY! SEE YOU IN GLIWICE!

Programmes of study provided in English:

- BSc in Automatic Control, Electronics, Telecommunication and Informatics
- BSc in Biomedical Engineering
- BSc in Biotechnology
- BSc in Civil Engineering
- BSc in Electrical Engineering
- BSc in Engineering Physics
- BSc in Industrial and Engineering Chemistry
- BSc in Informatics
- BSc in Management and Production Engineering
- BSc in Mathematics (Applied Mathematics)
- BSc in Mining and Geology
- BSc in Mechanical Engineering
- BSc in Power Engineering
- BSc in Transport
- MSc in Automatic Control, Electronics, Telecommunication and Informatics
- MSc in Automation and Robotics
- MSc in Architecture
- MSc in Biomedical Engineering
- MSc in Biotechnology
- MSc in Civil Engineering
- MSc in Electrical Engineering
- MSc in Industrial and Engineering Chemistry
- MSc in Logistics
- MSc in Management and Production Engineering
- MSc in Materials Engineering
- MSc in Mechanics and Machine Design
- MSc in Mechanical Engineering
- MSc in Mechatronics
- MSc in Mining and Geology
- MSc in Power Engineering
- MSc in Transport

Fields of study in Polish

- *analitika biznesowa* Business Analytics
- *architektura* Architecture
- *architektura wnętrz* Interior Design
- *automatyka i informatyka przemysłowa* Automatic Control and Industrial Informatics
- *automatyka i robotyka* Automatic control and Robotics
- *biotechnologia* Biotechnology
- *budownictwo* Civil Engineering
- *budownictwo podziemne* Underground Engineering
- *chemia* Chemistry
- *elektronika i telekomunikacja* Electronics and Telecommunication
- *elektrotechnika* Electrical Engineering
- *energetyka* Power Engineering
- *filologia* Philology
- *fizyka techniczna* Engineering Physics
- *gospodarka obiegu zamkniętego* Circular Economy
- *gospodarka surowcami mineralnymi* Mineral Resources Management
- *górnictwo i geologia* Mining and Geology
- *informatyka* Informatics
- *informatyka przemysłowa* Industrial Informatics
- *inżynieria bezpieczeństwa* Safety Engineering
- *inżynieria biomedyczna* Biomedical Engineering
- *inżynieria materiałowa* Materials Engineering
- *inżynieria procesowa i aparatura przemysłowa* Industrial Equipment and Process Engineering
- *inżynieria produkcji* Production Engineering
- *inżynieria środowiska* Environmental Engineering
- *logistyka* Logistics
- *matematyka* Mathematics
- *mechanika i budowa maszyn* Mechanical Engineering
- *mechatronika* Mechatronics
- *nanotechnologia* Nanotechnology
- *ochrona środowiska* Environmental Protection
- *pedagogika* Pedagogy
- *socjologia* Sociology
- *technologia chemiczna* Chemical Technology
- *technologie metali* Metals Technology
- *teleinformatyka* Teleinformatics
- *transport* Transport
- *transport kolejowy* Railway Transport
- *zarządzanie* Management
- *zarządzanie i inżynieria produkcji* Management and Production Engineering
- *zarządzanie projektami* Project Management

Facts & figures: • Established in 1945 • 190.000 graduates • 1673 academic staff • 20238 students
