Cracow University of Technology

Cracow University of Technology (CUT) has been training engineering staff for more than seventy years. Graduates of our university are highly valued in the labor market and more than 93% of our alumni who graduated from MSc studies, find a job within half year from obtaining a diploma and almost 68% of them already work during their studies. This is no doubt thanks to the alumni, but also it is a proof that the majors offered by our university are attractive and relevant to labor market needs and the education of generations of engineers is of high quality.

challenging tasks under the supervision of well qualified teaching staff, both within the framework of mandatory classes, as well as in 82 scientific student associations operating at our university. Among more than 1,100 researches and tutors are outstanding professionals who participate in intercollegiate research teams, both domestic and international. Their expertise and knowledge allow our university to maintain the appropriate position in Poland and in the international scientific community. Thanks to international contacts of CUT faculty, our students have the possi-

certainly find some sports discipline that corresponds to your aspirations. You can choose from the offer of 21 sports sections of CUT Students' Sports Association. You can also become a member of the University Students' Council and a number of other student organizations. You will definitely appreciate our social and sports facilities which belong to the most modern and sophisticated of all Cracow universities and technical universities in Poland.

Cracow University of Technology scientists were honored with prestigious awards for scientific achievements, inventions, architectural designs and outstanding publications. At the 43rd International Invention Show, INOVA, CUT together with TRICOMED SA won gold medal and has received a special prize from Toronto International Society of Innovations & Advanced Skills for medical component of prosthesis. Alumni of Faculty of Chemical Engineering and Technology have won a competition organized by Ministry of Higher Education and Science – 'Diamond Grant'. The research team from the Institute of Landscape Architecture at the CUT Faculty of Architecture received the Award of the Polish Minister of Science and Higher Education for outstanding achievements in teaching.

The Builder magazine rewarded professors from the CUT Faculty of Civil Engineering for research and contribution to the development of the construction industry. One of the researchers prof. Andrzej Flaga, is the head of the Wind Engineering Laboratory at Cracow University of Technology, the only research facility in Europe, which performs, among others, simulation test of snow-loaded objects. Prof. Witold Grzegożek, head of the CUT Department of Motor Vehicles Construction was awarded the Green Phoenix for the achievement of scientific research in the field of eco-motorization. Under his supervision a number of stu-

A dream comes true

Khais Palattu Tharayil (India): How to describe my life in Kraków and at Cracow University of Technology? It is amazing time, the best one I ever had in my life. Kraków is one of the most popular city where study a lot of international students. Thanks to that I have made many friends from all over the world. I'm never bored here because of different cultural activities which city and university offer. I have also opportunity to learn Polish language. Cracow University of Technology gives me high quality of study and opportunity to learn new things. People are very helpful in everything, you will never feel lonely. When I came here, I didn't know anyone but now I have many friends, memories and I really recommend this university and city. You will never regret it!

Our students are people with passion, open minded and excellent students. Among CUT students and alumni there are constructors of the hybrid commercial vehicle Bombus, prototype of electric vehicle Buzz, the world champion and three-time Polish champion in solving Sudoku puzzles and the laureate of the Royal City of Krakow Award.

Current educational offer of Cracow University of Technology includes 31 majors of undergraduate and graduate programs, which are conducted at 7 faculties of the university. Such a wide range of choice means variety of intellectual exploration and ability to solve

bility of participating in exchange programs abroad on the basis of over 100 bilateral agreements signed with universities around the world. Expertise gained this way is extremely valuable from the point of view of a young man/woman who start their career. CUT cooperation with the industry gives amazing opportunity to students to participate in lectures, internships and researches with help of Polish and foreign companies and scientific units i. e. CERN, GSI, Caterpillar, IBM, Nokia and many more.

Studies at Cracow University of Technology not only guarantee a high level of education. Each of you will

Programmes of study in English

- **BSc in Architecture** (accredited by the Royal Institute of British Architects RIBA)
- **BSc in Civil Engineering** (accredited by the European Network for Accreditation of Engineering Education)
- **BSc in Mechanics and Machine Design**

- **MSc in Architecture** (accredited by the Royal Institute of British Architects RIBA)
- **MSc in Civil Engineering** (accredited by the European Network for Accreditation of Engineering Education)
- **MSc in Chemical Technology** with specialization Innovative Chemical Technologies

- **MSc in Computer Science**
- **MSc in Environmental and Land Engineering**
- **MSc in Landscape Architecture** (accredited by IFLA Europe – International Federation of Landscape Architects)
- **MSc in Mechanics and Machine Design**
- **MSc in Power Engineering**

Fields of study in Polish

- **architektura** Architecture (accredited by the Royal Institute of British Architects RIBA)
- **architektura krajobrazu** Landscape Architecture (accredited by IFLA Europe – International Federation of Landscape Architects)
- **automatyka i robotyka** Automatic Control and Robotics
- **biotechnologia** Biotechnology
- **budownictwo** Civil Engineering
- **elektrotechnika** Electrical Engineering
- **energetyka** Power Engineering
- **fizyka techniczna** Applied Physics

- **gospodarka przestrzenna** Land Management
- **informatyka** Computer Science
- **informatyka stosowana** Applied Computer Science
- **inżynieria bezpieczeństwa** Safety Engineering
- **inżynieria biomedyczna** Biomedical Engineering
- **inżynieria chemiczna i procesowa** Chemical and Process Engineering
- **inżynieria materiałowa** Materials Engineering
- **inżynieria produkcji** Production Engineering
- **inżynieria środowiska** Environmental Engineering
- **inżynieria wzornictwa przemysłowego** Industrial Design Engineering

- **matematyka** Mathematics
- **mechanika i budowa maszyn** Mechanics and Machine Design
- **nanotechnologie i nanomateriały** Nanotechnologies and Nanomaterials
- **odnawialne źródła energii i infrastruktura komunalna** Renewable Energy Sources and Municipal Infrastructure
- **technologia chemiczna** Chemical Technology
- **transport** Transport

Facts & figures: Total number of students: 14 783 • Number of international students: 284 • Total number of university staff: 2024
