Gdansk University of Technology

Gdańsk University of Technology (Polish name: Politechnika Gdańska) is one of the oldest universities in Poland and the largest technical university in Northern Poland. It was established in 1904 and ever since its grounding it is educating world class engineers in various areas of science and technology.

Located in Gdańsk – a city of thousand-year tradition and the gate to the Polish coastal line – it is a perfect place to study and enjoy student life.

The University is constructed of nine faculties

The graduates not only easily find a job after graduation, but also often successfully create and run their own businesses. According to a nationwide survey, earnings of the Gdańsk University of Technology graduates are in the fourth place among graduates in the country.

During recent years, the University has been changing and constantly adapting to economic and social demands. The historical campus was adjusted to the needs of innovative organisation of studies and modern methods of teaching. GUT boasts of its

provide an education for engineers that enables them to "Conceive, Design, Implement and Operate" pro-industrial technological systems.

GUT is an active member of a number of university networks and associations, e.g. Baltic Science Research (coordination of nanotechnology research and education), Baltic University Network (Uppsala Protocol), Conference of European Schools of Advanced Education and Research and the Baltic Sea Region University Network.

Employees of GUT are scientists working with passion. Their achievements and scientific activities are reflected in a significant number of awards and distinctions granted by both the Minister of Science and Higher Education, as well as a number of national and international institutions related to scientific and research activities.

International students at GUT enjoy unique support – during the admission process and studies - given by International Students and Visitors Office (ISVO) – entity dedicated to promote the University internationally, recruit candidates from abroad and support the newcomers. ISVO is a part of International Relations Office of Gdańsk University of Technology and was created to provide any information and counselling to international candidates and students.

Supportive, multilingual staff can answer questions regarding application, the university, legal stay, accommodation, and solving any problems that may arise.

Study at GUT and feel like home!

My life in Gdansk, Poland

I'm **Lisa Aditya**, Master student in Environments Engineering. I have studied and worked in different universities, amongst all I would say this is the best place for study, research and guidance from professors. I'm fascinated with the teachers eagerness to their job and helping students. They are genuinely a teachers from their souls. I have been lectured with the current situation problems and case studies, which really helped me to understand the present scenario. I was amazed by their patience on teaching, they make sure we understand properly and they will solve all the questions we ask, it's difficult to find in other universities. I have observed the faculties are helping with all of their hearts to the students. The campus infrastructure, study places is amazing, the library has lots of collection journals, books and digital access helps me on my research. Kocham PG ♥

with 36 fields of study. It employs 1200 academic teachers and educates almost 20 thousand students.

For potential candidates it is important to know that Gdańsk University of Technology is one of the most popular universities among young people. Second time in a row it came in the first place in the ministerial ranking measuring the popularity of the university among candidates to study.

tradition and history, which is considered university's wisdom, facing its main challenge – the future.

Great emphasis is placed on maintaining high education quality standards. GUT is the first and only Polish university to be a member of the CDIO Initiative, founded by the Massachusetts Institute of Technology in collaboration with Chalmers University of Technology in Sweden. CDIO aims to

Programmes of study in English

- Bachelor in Management
- Bachelor of Science in Energy Technologies
- Bachelor of Science in Green Technologies and Monitoring
- Bachelor of Science in Data Engineering
- Bachelor of Science in Mechanical Engineering
- Master in Management – specialization: International Management; Small Business Economics & Management
- Master of Science in Architecture

Fields of study in Polish

- *analiza gospodarcza* Economic Analytics
- *architektura* Architecture
- *automatyka, robotyka i systemy sterowania* – Automatics, Robotics and Control Engineering
- *automatyka, cybernetyka i robotyka* – Automatics, Cybernetics and Robotics
- *biotechnologia* Biotechnology
- *budownictwo* Civil Engineering
- *chemia budowlana* Chemistry in Construction Engineering
- *chemia* Chemistry
- *ekonomia* Economics
- *elektronika i telekomunikacja* Electronics and Telecommunications
- *elektrotechnika* Electrical Engineering
- *energetyka* Power Engineering (interfaculty fields of study)
- *europaistyka* European Studies

- Master of Science in Automatic Control and Robotics – specialization: Signal Processing
- Master of Science in Civil Engineering
- Master of Science in Control Engineering and Robotics – specialization: Automatic Control Systems; Robotics and Decision Systems
- Master in Economic Analysis
- Master of Science in Electronics and Telecommunications – specialization: Computer Electronic Systems; Radio Communication Systems and Networks
- Master of Science in Environmental Engineering

- Master of Science in Green Technologies and Monitoring
- Master of Science in Informatics – specialization: Distributed Applications and Internet Services
- Master of Science in Mechanical Engineering – specialization: International Design Engineer
- Master of Science in Ocean Engineering – specialization: Ship and Offshore Structures; Marine and Offshore Energy
- Master of Science in Nanotechnology
- International MBA in Strategy, Programme and Project Management (AMBA accredited)

- *fizyka techniczna* Technical Physics
- *geodezja i kartografia* Geodesy and Cartography
- *gospodarka przestrzenna* Spatial Development
- *informatyka* Informatics
- *inżynieria biomedyczna* Biomedical Engineering (interfaculty fields of study)
- *inżynieria materiałowa* Materials Engineering (interfaculty fields of study)
- *inżynieria mechaniczno-medyczna* Medical and Mechanical Engineering (intercollegiate field of study)
- *inżynieria i technologie nośników energii* Engineering and Technologies of Energy Carriers
- *inżynieria morska i brzegowa* Coastal and Offshore Engineering
- *inżynieria środowiska* Environmental Engineering
- *korozja* – Corrosion

- *matematyka* Mathematics
- *mechanika i budowa maszyn* Mechanical Engineering
- *mechatronika* Mechatronics
- *nanotechnologia* Nanotechnology
- *oceanotechnika* Ocean Engineering
- *technologie chemiczne* Chemical Technology
- *technologie kosmiczne i satelitarne* Space and satellite technologies
- *transport* Transport
- *zarządzanie i inżynieria produkcji* Management and Production Engineering
- *zarządzanie inżynierskie* Engineering Management
- *zarządzanie* Management
- *zielone technologie i monitoring* Green Technologies and Monitoring

Facts & figures: established in 1904 • over 1200 academic staff • almost 20 thousand students • more than 100 000 postgraduates
